STRATABOUND MINERALS CORP.
(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

The Company's auditors have not audited nor have they performed a review of these interim financial statements. The unaudited interim financial statements for the period ended March 31, 2009 have been prepared by management in accordance with Canadian generally accepted accounting principles and follow the same accounting policies as the financial statements for the fiscal year ended December 31, 2008. The unaudited interim financial statements should be read in conjunction with the financial statements and the notes therein for the fiscal year ended December 31, 2008.

1. GOING CONCERN

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

These financial statements have been prepared on a going concern basis and do not include any adjustments that may be required should the Company be unable to continue as a going concern. The amounts shown as mineral properties represent net costs to date, less amounts written off, and do not necessarily represent present or future values. The recovery of the cost of mineral properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development, and future profitable production or proceeds from the disposition of properties.

2. MINERAL EXPLORATION PROPERTIES

	March 31, 2009	December 31, 2008
Acquisition and renewal costs	\$ 718,356	\$ 710,658
Exploration expenditures	7,254,004	7,127,708
	\$ 7,972,360	\$ 7,838,366
Consists of:		
Bathurst, New Brunswick	\$ 4,253,512	\$ 4,178,521
Elmtree, New Brunswick	2,154,891	2,102,521
Melchett Lake, Ontario	742,503	741,603

Ramsay Brook, New Brunswick	243,778	243,778
Otish Mountain (Marusia), Quebec	227,589	227,414
Highway Properties, Western New Brunswick	29,812	29,032
Green Point, New Brunswick	12,998	12,998
Loch Lomond, Southern New Brunswick	11,156	11,156
	\$ 7,972,360	\$ 7,838,366

STRATABOUND MINERALS CORP.
(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

2. MINERAL EXPLORATION PROPERTIES, continued

- a) Bathurst, New Brunswick
The Company holds a 100% interest, subject to 1% net smelter return royalty of 4,000 hectares in the Bathurst base metal mining camp in New Brunswick, Canada. The properties include the CNE/Captain Group, CNE Mining Lease, Captain East Extension, Nepisiguit Brook, Taylor Brook and Taylor Brook East Extension claim groups.
- b) Elmtree, New Brunswick
The Company has a 100% interest, subject to a 2% net smelter return royalty, in 69 claims (1,104 hectares), hosting gold and polymetallic prospects in Gloucester County, New Brunswick. An additional 16 claims (not subject to net smelter return royalties) were acquired by staking, bringing the total to 85 claims (1,360 hectares).
- c) Melchett Lake, Ontario
In 2007 the Company entered into an option agreement whereby it can acquire a 60% interest in a 105 unit (subsequently expanded to 209 units, 3,344 hectares) base and precious metals prospect 60 kilometres north of Nakina, Ontario. To earn the 60% interest Stratabound must spend \$1,000,000 on exploration prior to November 1, 2010. As at March 31, 2009, \$709,365 had been spent on exploration.
- d) Enja, Quebec
The Company has a 100% interest, subject to a 2% net smelter return royalty, in this 69 claim (3,700 hectares) gold and base metal prospect.
- e) Highway Properties, Western New Brunswick

St. Thomas, Lamoreaux Corner, Beechwood/Upper Guisiguit, Aroostook and Four Falls

The Company has a 100% interest in 73 claims (1,168 hectares) covering gold prospects along a 60 kilometre portion of a new section of the Trans-Canada Highway.
- f) Ramsay Brook, New Brunswick
The Company holds a 100% interest in 68 claims (1,088 hectares) covering gold prospects in Restigouche County, New Brunswick.
- g) Otish Mountains (Marusia), Quebec
The Company holds a 100% interest in the 2,630-hectare Marusia diamond/gold prospect in the Otish mountain area of Central Quebec, subject to a 2% net smelter return royalty.
- h) Green Point, New Brunswick
The Company has a 100% interest, subject to a 2% net smelter return royalty in 71 claims located 2.5 kilometres northeast of the Company's Elmtree Extension claims.
- i) Loch Lomond Area, Southern New Brunswick
The Company acquired by staking a 100% interest in the Shanklin Road and Grassy Lake claim groups (18 claims, 288 hectares) near the former Cape Spencer gold mine.

(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

3. **SHARE CAPITAL, continued**

b) Stock options

The Company has a stock option plan for its key officers, directors, employees and consultants. Up to 10% of the issued and outstanding shares may be reserved for issuance under the plan. The weighted average fair value of each option granted is estimated using the Black-Scholes option-pricing model using the following assumptions for options: weighted average life of five years (2008 - five years), risk free rate of 4.0% (2008 - 4.0%), expected volatility of 331% (2008 - 331%), vesting immediately and dividend yield of 0% (2008 - 0%).

	Number	Weighted average exercise price
Outstanding December 31, 2007	2,690,000	\$ 0.26
Issued during the period	700,000	0.40
Outstanding December 31, 2008	3,390,000	0.29
Issued during the period	-	-
Expired during the period	(250,000)	0.20
Outstanding March 31, 2009	3,140,000	0.27

All the options outstanding vest immediately and are all exercisable at March 31, 2009.

Options outstanding	Exercise price	Expiry date
175,000	0.20	June 27, 2009
200,000	0.15	April 21, 2010
1,075,000	0.20	November 13, 2011
940,000	0.27	August 30, 2012
50,000	0.42	October 2, 2012
700,000	0.40	January 9, 2013
3,140,000

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

3. SHARE CAPITAL, continued

c) Warrants

The following is a summary of the warrants outstanding.

	March 31, 2009		December 31, 2008	
	Warrants outstanding	Exercise price	Warrants outstanding	Exercise price
Balance, beginning of year	2,679,733 \$	0.15	150,000 \$	0.22
Issued for cash	-	-	2,679,733	0.15
Exercised	-	-	-	-
Expired			(150,000)	0.22
	2,679,733 \$	0.15	2,679,733 \$	0.15

The 2,679,733 warrants outstanding at March 31, 2009 expire on December 31, 2010.

4. CAPITAL DISCLOSURE

The capital structure of the Company consists of equity attributable to common shareholders and includes share capital, contributed surplus, warrants, stock options and comprehensive income and deficit.

The Company manages its capital to maximize its ability to be able to continue as a going concern and have sufficient capital to develop its mining projects and take them to production. The Company's present overall capital risk management strategy remains unchanged from 2008.

The Company is not subject to any externally imposed capital requirements.

STRATABOUND MINERALS CORP.
(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

5. FINANCIAL INSTRUMENTS

Financial instruments consist of recorded amounts of cash and cash equivalents and accounts receivable which will result in future cash receipts, as well as accounts payable which will result in future cash outlays.

The Company is exposed to the following risks in respect of certain of the financial instruments held:

(a) Credit risk

Credit risk is the risk of loss associate with the counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and accounts receivable. Cash and cash equivalents are held with a reputable Canadian chartered bank, from which management believes the risk of loss to be minimal.

Financial instruments included in accounts receivable consist of amounts due from joint venture partners and sales tax receivable from government authorities in Canada. Accounts receivable are in good standing as of March 31, 2009. Management believes that the credit risk concentration with respect to financial instruments included in accounts receivable is minimal.

(b) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and commodity and equity prices.

i) Interest rate risk

The Company has cash balances. The Company's current policy is to invest excess cash in investment-grade short-term GICs issued by banks with which it keeps its bank accounts. The Company periodically monitors the investments it makes and is satisfied with the creditworthiness of its banks. The Company regularly monitors its cash management policy.

ii) Commodity and equity price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, particularly as they relate to base and precious metals, individual equity movements, and the stock market in general to determine the appropriate course of action to be taken by the Company.

STRATABOUND MINERALS CORP.
(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

5. FINANCIAL INSTRUMENTS, continued

(c) Property risk

Unless the Company acquires or develops additional significant properties, the Company will be solely dependent upon the projects currently held by the Company. If no additional mineral properties are acquired by the Company, any adverse development affecting these projects would have a material adverse effect on the Company's financial conditions and results of operations.

(d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure. Accounts payable and accrued liabilities are due within the current operating period.

(e) Financial risk

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, market risk (including interest rate and commodity and equity price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

STRATABOUND MINERALS CORP.
(Unaudited - Prepared by Management)
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2008 AND 2009

5. FINANCIAL INSTRUMENTS, continued

Sensitivity analysis

The Company has, for accounting purposes, designated its cash and marketable securities as held for trading, which is measured at fair value. Accounts receivable are classified for accounting purposes as receivables, which are measured at amortized cost which equals fair market value. Accounts payable and accrued liabilities are classified for accounting purposes as other financial liabilities, which are measured at amortized cost which also equals fair market value.

As of March 31, 2009 both the carrying and fair value amounts of the Company's financial instruments are approximately equivalent.

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a year:

i) Interest rate risk is minimal as cash and cash equivalents include investment-grade short-term GICs with fixed interest rates.

ii) Commodity price risk could adversely affect the Company. In particular, the Company's future profitability and viability of development depends upon the world market price of base and precious metals. Base and precious metal prices have fluctuated widely in recent years. There is no assurance that, even as commercial quantities of base and precious metals may be produced in the future, a profitable market will exist for them. A decline in the market price of base and precious metals may also require the Company to reduce its mineral resources, which could have a material and adverse effect on the Company's value. As a result, commodity price risk may affect the completion of future equity offerings and the exercise of stock options and warrants. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.
